2 November

9th Annual National Conference on Cyber Security Sri Lanka

Mr Goh Eng Choon, Senior Vice President & General Manager of ST Electronics (Info-Security), was invited to speak at the 9th Annual National Conference on Cyber Security organised by the Sri Lanka Computer Emergency Readiness Team | Coordination Centre (CERT|CC) and Information and Communication Technology Agency of Sri Lanka (ICTA). Mr Goh spoke on the topic "Building A Cyber Security Collaboration Framework: A Singapore Experience" during the conference.

This flagship event was organised in conjunction with the Sri Lanka's Cyber Security Week to raise awareness about information security in the country. It also provided an opportunity for industry experts to share their knowledge and experience on the latest cyber security trends, technologies and issues faced by corporations and government agencies.

16 November

ST Electronics & IBM Cyber Security Seminar Singapore

ST Electronics and IBM Security jointly organised a technology seminar themed "The Next Generation of Advanced Security Operations Centre" to bring together deep domain expertise in the design, build, operation and maintenance of the Next Generation Advanced Security Operations Centre (SOC) for participants at the seminar.

A panel of domain experts from both companies shared valuable insights on the latest innovative concepts, technologies and processes needed for the Next Generation Advanced SOCs. The seminar also presented the use of effective predictive analysis that reduces time spent in the detection and response to cyber threats with a leaner SOC team. This event provided cyber security professionals and other stakeholders an excellent networking opportunity to discuss and exchange ideas with representatives from the public and private sectors.

2017

22 – 24 January

Intersec Dubai 2017 Dubai

ST Electronics showcased its security-related solutions to industry players at the leading international meeting platform for the security and safety sectors in the Middle Eastern and North African region. The event held in Dubai from 22 to 24 January, attracted 1,304 exhibitors from 58 countries and was attended by more than 33,000 industry professionals.

Solutions displayed at the Intersec Dubai included SERIS - Smart Analytics (CyberPrism), AgilFence Perimeter Intrusion Detection System, AgilSpace GeoServices and ID Verification System.

23 – 24 February

Global Space & Technology Convention 2017 Singapore

ST Electronics participated in the Global Space & Technology Convention 2017, Asia's premier space & technology event for the sixth consecutive year. Held at the Singapore Marriott Tang Plaza Hotel on 23 and 24 February, this event brought together more than 350 delegates from space and government agencies, international organisations, universities and research institutes from Singapore and around the world.

Guest-of-Honour, Mr S Iswaran, Minister for Trade and Industry (Industry), Mr Vincent Chong, President and CEO, ST Engineering and Mr Ravinder Singh, President, ST Electronics, previewing ST Electronics' space capabilities at its booth.
